ROADRUNNER®

The world's only electronic wheel with a steel frame the withstand the harshest conditions.

- Great for
- Contractors
 - Engineers
 - Landscapers
 - Civil contractors
 - Surveyors
 - Fencers
 - Real Estate valuers
 - Concretors

World's strongest electronic steel wheel

Swan-neck patent pending grip.

High tensile, light weight all steel frame. 3/4 inch.

Compact fold down. Easy to use one barrel clamp.

Sealed waterproof case to IP54.

Counter placement is protected so that the unit can't make contact with the ground in the event of wheel falling over.

Magnetic pick up sensors for accurate measurement.

Spoked wheel with precision turned circumference.

Add wheel radius for wall to wall

Auto shut-off

Back light

8 measurement recall

Large metric or Imperial easy-read LCD display

Area calculation

Specifications 003-MP401E

Display	Backlit LCD
Display Distance	to 99,999.9 in mm or 99,999ft
Accuracy	99.8% or + 20mm @ 10,000mm
Power	2 - AA batteries
Memory	8 measurement recall
Max speed	16km/hr
Weight	3.17kg
Calculations	Length,area
Wheel size	317.5mm dia
Length	Extended - 1067mm Storage - 534mm

2 year warranty

COMPLETE MEASURING SOLUTIONS
